

THE INSTITUTE OF PROPRIOCEPTIVE MEDICINE

# The Assessment and Treatment of Proprioceptive Integrity

Three one-day seminars leading to Certification in Proprioceptive Medicine

By Dr Simon King, Chiropractor

**Dr Simon King,**  
B.App.Sc.(Chiro),DIBAK  
has been practising  
chiropractic for 20 years.  
He has lectured at  
Chiropractic Colleges in the  
UK and Australia. He is a  
Diplomate of the  
International College of  
Applied Kinesiology and  
regularly teaches the  
principles of Proprioception  
to Chiropractors,  
Osteopaths and other health  
professionals. He recently  
established the Naturality  
Wellness Centre in  
Berkhamsted, a clinic  
dedicated to the practice of  
Proprioceptive Medicine.

## **Programme:**

All seminars held on Sundays

9.00 Registration

9.30 Start

1.00 Lunch included

17.00 Finish

**6 CPD Hours per seminar.**

Dear Friend and Colleague,

Through a series of neurological reflexes, proprioception regulates and controls muscle tone. Whether you're working with a power-lifter, ballerina, bricklayer or concert pianist, you need to know how proprioception affects muscles, especially the joint stabilisers.

If proprioceptive integrity is lost, so is joint stability. An unstable joint is more likely to be sprained, subluxated, fixated, injured and inflamed. In time, unstable joints become recurrent, chronic, arthritic and degenerative.

Truly understanding proprioception has enabled me and my students to successfully treat thousands of previously unresponsive patients, quickly and easily. Using video of actual cases, demonstration and hands-on instruction, I will show you how you can finally sort out those problem cases that are probably only 10% of your practice, but seem to create 80% of your stress.

Join me as I reveal a step-by-step system that will put you in control of a revolutionary approach that combines the best of proprioception, neurology, and kinesiology in an easily understandable format. If, for some reason, you decide this approach is not for you, you are welcome to leave before lunch and receive a full refund.

Give 'em Health

Simon King,  
Chiropractor.
